

Mosaic Academy Request for Waivers From Aztec Municipal School Code.

School Policy and from the Secretary of Education and the Pub.

**Waivers**

**N. 51. List the specific waivers by number and title that are requested from the local school board policy.**

Over the past three years the Administration and Governing Council of Mosaic Academy have worked very hard to create and adopt policies for which we requested waivers from the Aztec District or the PED. We currently have all of those in place and have begun the process of reviewing the ones we have created as well as the ones for which we did not request a waiver. The Governing Council recognizes the importance of understanding the policies that govern our school and the procedures by which those policies are carried out. In an effort to maintain this process we have reviewed the original waiver requests and any additional policies AND exhibits that were not originally reviewed. The following is an updated table of policies with new requests and some changes. The policies/exhibits that were not included last time are in yellow and the ones that we are requesting a change in are in blue. We respectfully request that the changes and/or additions be granted. Additionally, we would like to work with the AMSD staff to develop a procedure to be utilized as we review policies, should the Governing Council feel we need any revisions prior to the next renewal process.

**N. 52. Describe how the charter school will address these waivers from local school board policy.**
